Yesterday's Games.

To-Day's Schedule. ational League, outs at Chicago, delphia at Brook. Boston at Philadelphia Washington at Baiti. Detroit at Chicago.

Cardinals yesterday, unable strengthen their percentage by standing were forced back into third place in the chase after the pennant. Philadelphia sgain passed above the locals by taking a game in handy style from Brooklyn. Townd, the Quakers' new find, twirled a brilliant game, allowing the Brooklynites but three hits, out of which the latter were unable to extract any runs. Hughey Jennings back in the game, and yesterday made

is back in the game, and yesterday made his presence felt by securing two hits and having seven put-outs to his credit. Boston administered the usual beating to New York. Willis and Phyle were touched for five hits apiece, but by bunching theirs the Seeleyites came out easy winners. The Giants did not once connect with the pan. Over at Cincinnati the Reds and the Rem-nants wrestled for fourteen innings. The tall-end clubs battled fercely, Hahn and Hughes being about evenly matched, dahn Hughes being about evenly matched, dahn was touched for thirteen hits, but after the sixth inning twirled excellent ball. In nal heat, with two men out, the Reds, the final heat, with two men out, the Reds, by virtue of a single, a scratch hit, a base on balls, and by beating out a throw, succeeded in getting the winning run over the plate.

The Quakers lead the Cardinals now by the narrow margin of three points, but with any kind of luck at all the latter should boost themselves back in second place by taking the majority of games at chicago.

tsy Donovan and his team departed night over the Chicago and Alton for ago, where to-day they will engage in set with the valorous warriors of Jim. Manager Donovan says the team is od shape, and confidently expects to a his full share of games, and more date of Heidrick's rejoining the team is le uncertain. However, J. Emmet will hand before the team leaves Chicago, bly to-morrow, but Saturday surerick's presence in the Chicago series result in a material change which will und to the benefit of the Cardinals, and the dapper Pennsylvanian shows up in the center garden. Nichols, who been giving good satisfaction in center will likely be sent to the bench, and Padden at the second bag again Jack in will be given a much-needed rest, liver, whose batting was a feature of recent series with Pittsburg, will likely be received in a least two of the Chicagos. With Heidrick's stick work, len on deck again, and Schriver going at gait, the Windy City pitchers are the far no St. Louis capitalists have

aus far no St. Louis capitalists have a discovered who will admit that they are dickering for the removal of the Mil-waukee American League team and fran-chise to this city. According to Ban John-sm, the proposition has been made and de-clined. In the same breath Johnson states that the necessary leases of grounds in St. Louis have been secured. Mr. Johnson will not discuss which of the present American League teams is to be transferred to St. Louis, but, despite his straightforward de-nial that the Milwaukee club is not included in the figuring, it is most likely that that club, of all others, has been slated for re-moval.

in the figuring, it is most likely that that club, of all others, has been slated for removal.

C. W. Somers, vice president of the American League, who was present at the conference in Chicago Tuesday, has disposed of his interests in the Cleveland club, and his presence at the conference is not significant, unless he was representing the Ohlo city by proxy. The transferral of Baltimore to St. Louis would throw the circuit out of balance, with five clubs in the West and only three in the East. New York is also considered as an American League postibility. Mr. Somers, who is owner of Lea Boston American League team, and Henry Killen of the Milwaukse club, refused to fiscuss the matter.

The establishment of an American League team is L. Louis as opposed to the attraction of a National League team would prove interesting. If the Cardinals succeed in landing the pennant this year, or even running second, they will lose none of their immense following here. On the other hand, a rival club would have to make good from the start of the season to draw crowds away from National games. Another thing that would divide attendance would be the acquisition by a rival team of some of the local National stars. The case of Lajole of Philadelphia is an excess of Lajole of Philadelphia is an excess of Lajole of Philadelphia is an excess the start of the season to draw crowds away from National stars. ample of the power of a player to bring a comparatively strange crowd of ball-tossers into popularity. Since the recent quabblings within the American League, players will not so readily desert the National League for the American, even if a good inducement is offered to do so.

The question of grounds is also one that will confront a raval organization. Athletic Park might be transformed into suitable grounds, but it is more likely that if a raval club is placed in St. Louis in 1962 entirely new grounds will be figured on.

The reduction in the price of admission to 25 cents, recently adopted by the Boston National League Club in Boston, has brought trouble to the Bostonians. The other clubs of the League refuse to divide with the Boston club only on a 25-per-cent basis. Consequently, the Bostons receive only 12½ cents for each 50-cent admission to games they play away from home. The Boston club has made a protest, but the question will have to be settled by the League at its next meeting.

Here are a few comments from the Pitts-burg papers anent the recent series the Pirates played here. From the Pittsburg Peat:
"St. Louis players did not earn their \$200 supers." aplece."
"Chesbro yesterday (Monday) pitched against St. Louis at his own request. He wanted revenge for Friday's loss, and he

against St. Louis at his own request. He wanted revenge for Friday's loss, and he got it."

From the Pittsburg Commercial Gazette: "Having made an even break in St. Louis, the Pirates are in line for a welcome home. It's quite a trick for any team to make an even break with the Cardinals on their home grounds, as Donovan's men are putting up the scrappiest kind of ball these days and are fighting for every point."

"It looks as though Patsy Donovan in his anxiety to win games is working his pitchers to death. Monday was the second time that Powell faced the Pirates during the series, and it was the old story of the pitcher going once too often to the well."

An undertone of resentment is apparent in the Pittsburg press comments on the series. Someone has been making excuses to the Pittsburg scribes. Manager Donovan said last might that he anticipated no trouble at Pittsburg.

It is said that Manager Manning of the Washington American League Club has secured Charlie Atherton, second baseman of the Buffalo club, who was suspended last week. He is also reported to be dickering with First Baseman Carey of the Buffaloes. Pitcher Win Mcrcer, who has been resting up at his Ohlo home, will join the Washington club at Baltimore.

Third Baseman Root of Kalamazoo, Mich., will be tried out by Hugh Duffy of Milwaukee. It is not believed that Root can go the pace. The Washington club offered Geier a trial, but the latter wanted \$40 per month which Clarke refused to pay. Geier's notice of release expired Tuesday.

month which Clarke refused to pay. Geier's notice of release expired Tuesday. The Cardinals are not felicitating themselves that they will have a walk-over at Chicago. The Remnants when here displayed ability to play a good game, although two of their number were on the bench from injuries. Charley Dexter, playing first and Jack Menefee in the right garden. The Fragments are no longer tattered and torn. Jack Doyle is back at first and seems to be in the game right. In Tuesday's game at Cincinnati Doyle accepted twelve chances without an error and made a timely two-bagger. Charley Dexter, who has played every position on the Chicago team, excepting pitcher. Is relieved at first by Doyle's reappearance, and probably will don the mark in at least one of the St. Louis games at Chicago. Chance is back at work in the right garden, relieving Menefee, and it is reported that the latter has recovered the use of his pitching arm, and will do some twirling soon. With Hartsel, Chance and Doyle in the game again, and the additional battery at work, the Remnants will most likely inject more life into their playing. Barry McCormick is not hitting very hard, but is doing great stunts around the inner circuit. With Hartsel, Danny Green and Chance covering the outfield, Chicago will, no doubt, give the Cardinals a hot argument.

It seems that if the New Yorks, with the sid of the phenomonal Christy Matthewson, could not strike a fast gait early in the season, they now have but little chance to forge ahead. Of late New York has come out second best in most of its frays, and the Gotham fans enthuse no more about their team. Of a total of three consecutive games last week, beginning on Thursday with Brooklyn and followed by two with Boston, the Giants registered a total of only nine hits. In the Brooklyn games, but one safety was credited to New York, and it was a lucky scratch hit. Kitson was the nitcher who made this showing against the Giants. The following day, the Bostonians, with Willis in the box, allowed the New Yorkers but six hits. Dincen, who officiated for Boston the following day, the Hostonians, with Willis in the box, allowed the New Yorkers but six hits. Dincen, who officiated for Boston the following day the Gothamites down with two hits, and neither of these were made until the eighth insulaes. Unside a did wretched fielding. Lewis relieve in the eighth insuling, when the base hinding. Concerning the probable wind-up of the Glants and the present outlook. Sam Crane says in the New York Journal:

"It is a beastly shame that a one, two, three aggregation of ball tossers cannot be located here. For awhile it did look as if we had one, but the gang tumbled further than the weak-kneed and sand-lacking Cincinnat Reds ever did.

Cincinnati Reds ever did.

"The Bostons were downed four straight times recently by Philadelphia. The Bostons come here and play rings all around the local hired men.

"The question arises: Where are the Giants going to land when they stack up against the Quakers? It will be very much "Chicago' again, doubtless.

"If there was something good to look forward to, one could live in hopeful anticipation, but as the situation now stands the outlook is disheartening.

"The Giants have made nine safe hits in their last three games. How is that for slunging? An average of three hits to a game. Such 'bum' batting in any jerkwater league would subject the players to a walk home.

"An improvement and an immediate one in batting is a crying demand by local lovers of the game. It is up to Manager Davis to suggest some scheme for it. There is nothing gained by walting for things to change for the better. There is such a thing as taking matters too easily. There is absolutely no excuse for players who are paid good salaries to play ball, standing at the plate like cigar store sign Indians and allowing ball after ball to cut the pinte without swinging at them."

Outfielder Crollus of the Bostons has been

Outfielder Crollus of the Bostons has been given his ten-day notice of release, since Cooley cast his lot with the Selectics, and Tenney returned to the game. Hamilton seems to be in for a spell of bench warming.

Tommy Coreoran of the Reds, who has been out of the game for some little time is expected to return to the Cincinnati team in time to participate in the Pittsburg games beginning Saturday, Corcoran says that he has entirely recovered from the effects of his recent illness, the only reminders of it being a pair of weak ankles from being in bed so long and an enormous appetite from dicting for weeks. No one realizes better than Corcoran that his absence has been a great handleap to the Reds. As soon as Tommy redons the spangles Magoout probably will be switched to second base. Peliz may be used at third until Steinfeldt recovers his form again.

Umpire Billy Nash, who has been less criticised in St. Louis than any other umpire is giving eminent satisfaction on the Western circuit. The Cincinnati papers say that Nash's umpiring was above the standard seen on the Cincinnati grounds this season, and strange to say, the Chicago scribes have registered no strenuous kick over any of his deciscions.

With twenty stolen bases to his credit. "Chick" Stah' of the Boston American League team, has a better base-running record than any player in either the American or National leagues.

Hugh Duffy has made but one error in 180 hances, and has been batting at a .330 clip. PHILADELPHIA 3, BROOKLYN O.

Cause of Celebration at Anheuser-Busch Brewery.

A great blowing of whistles ringing of beils and booming of guns caused consternation in the neighborhood of Ninth and Pestalozzi streets about 4 p. m. yesterday afternoon by starting the report that the Anheuser-Busch brewery had taken fire. The clamor was in celebration of the output by the brewery of the milionth barrel of beer for the twelve-month beginning August 1, 1990. This according to the brewery officials, is the largest product ever reached by a single brewery in the world's history.

officials, is the largest product ever reached by a single brewery in the world's history.

For the previous twelvemonth the preduct had been \$15,000 barrels, and a special effort was made this year to reach the million mark. Cheek was kept both by revenue stamps and on the books and the entire staff was alert yesterday to note the millionth barrel.

When it was reached, the whistle valves on all the engines in the brewery were wedged open, all the bells on the premises were set pealing, and the one-pounder at the main entrance of the brewery fired the President's salute of twenty-one guns.

Work was suspended, and the members of the staff of the brewery and their friends met on the lawn at the side of the Busch home and felicitated one another in speeches on the event. Edward A. Faust, second vice president, was in charge of the worke, and Tony Faust, his father, who was among the celebrants, shed tears of joy at the distinction his son had won.

A cablegram was sent to Adolphus Busch, who is at his summer home at Langen Schwalbach, Germany, reading: "Mid satute of cannon and waving of colors, we announce that we have passed the million-barrel mark. We congratulate our president. Faust, staff and employes."

The millionth barrel was sent to Honolulu.

MARYLAND DEMOCRATS.

Convention To-Day Will Deal Only With State Issues.

Baltimore, Md. July 31.—The Democratic State Convention which will meet in this city at noon to-morrow promises to be thoroughly harmonious. In the primaries, which closed yesterday, no bitterness has been developed except in Montgomery County, where the friends of Senator Boule are sore over his defeat by Spencer Jones, the administration candidate. The delegates to the coming convention, with few exceptions are strict organization men, and there will be no kicking over the traces. The enly nominations to be made to-morrow are candidates for Controller and elerk of the Court of Appeals. At this time there seems no reason to doubt that Dector Joshua W. Hering will be renominated for Controller and that J. Frank Turner will get the other place on the ticket.

As to the declaration of principles it seems clear that no mention will be made of national issues. Nothing will be said about the currency, the trailf, imperfallem or anything of that sort, but every plank in the platform will be confused strictly to State issues. Prominent among these will be the negro voter problem. Although the leaders will not admit it, there is every reason for believing a strong declaration will be made on this subject following closely along the lines laid down by the Democrates at their recent convention in Frederick County. from the freight elevator at the fourth floor, and was picked up in the basement, flify feet below.

With John Hausler of No. 615 Rutger street. Winklemann was engaged in conveying office furniture for a new tenant of the building from the ground floor to the fourth floor. The freight elevator is constructed with an entrance in the front and rear. The furniture consisted of a large roller-top deak and chairs. The builk of the desk prevented the closing of the rear entrance of the elevator. Winklemann, when the elevator started upward, could find but little space in which to stand, and that was directly back of the elevator boy and adjacent to the open door which faced upon the elevator shaft.

Before the elevator started, Winklemann was cautioned against leaning backward, but just before the fourth floor was reached he stooped to pull up his trousers. WAS ON PEACEFUL MISSION. Passports Held by Murrillo Make His Seizure Censurable.

Washington July 31.—Arture de Brigard, the Columbian Consul General at New York, is in the city in consultation with the officials of the Columbian Legation regarding the situation in Colombia, and especially with reference to the seizure of Murrillo, one of the aids of General Uribe, the revolutionary leader, at Cartagens, Colombia, some time ago.

According to officials at the Legation, the passports with which Murrillo was armed stated specifically the peaceful mission upon which he was journeying.

The officials do not believe that his seigure will give rise to a diplomatic inclient with Germany.

The officials at the legation scout the idea that General Uribe has invaded Colombia with 15,000 men. They know however, the he has purchased arms in Belgium and that he went to Curacao and from there to the Venezuelan frontier, whence he was to launch his expedition.

According to all the information obtained here, however, and the legation has now frought.
